GEOGRAPHY

Time: 3 Hrs. **Max. Marks: 80**

Note:

(1) All questions are compulsory.
(2) Draw relevant diagrams / graphs wherever necessary.
(3) Use of colour pencil is allowed.
(4) Use of map stencil is allowed.
(5) Figures to the right indicate full marks.
(6) Tie your supplement of map to your main answer sheet.

Q.1. Answer the sub-questions as per given instructions: **[20]**

(A) Complete the chain according to the co-relation of factors in column 'A' 'B' and 'C': **(5)**

No.	'A'	'B'	'C'
(1)	Making maps	(a) Delhi	(l) Niger
(2)	Administrative cities	(b) Pampas	(m) Small - Scale Industry
(3)	Grass-Land Region	(c) Observation	(n) Skills of Geographer
(4)	Toys	(d) Bangladesh	(o) New York
(5)	Population Explosion	(e) Paper Industry	(p) Argentina

(B) Choose the correct option and complete the sentences: **(5)**

(1) Tertiary activities include -

(A) Fishing
(B) Sugar Industry
(C) Animal Husbandry
(D) Trade

(2) Human factors affecting the distribution of population -

(A) Climate
(B) Soils
(C) Transportation
(D) Relief

(3) A major crop of extensive commercial agriculture -

(A) coffee
(B) wheat
(C) rice
(D) medicinal plants

(4) Functional region -

(A) Pune Metropolitan (B) Latur
(C) Satara (D) Amravati

(5) Bharat Heavy Electricals Limited is _____ type of establishment.

(A) Joint Sector (B) Co-operative Sector
(C) Public Sector (D) Private Sector

(C) Answer the following questions as per given instructions: **(5)**

(1) Arrange the following industries in descending order based on capital investments -
   (a) Small scale industry
   (b) Micro scale industry
   (c) Large scale industry
   (d) Medium scale industry

(2) Identify the incorrect factor -
   (a) Research
   (b) Training
   (c) Hunting
   (d) Teaching

(3) Arrange the countries on the basis of their location from West to East-
   (a) France
   (b) India
   (c) Japan
   (d) U.S.A.

(4) Identify a country passing through the 'late expanding stage' of Demographic Transition Model/Theory-
   (a) Germany
   (b) Sweden
   (c) Congo
   (d) China

(5) Ideal location for fishing fields -
   (a) rugged coasts, shallow seas, hot climate, growth of planktons
   (b) shallow seas, confluence of warm and cold ocean currents, growth of planktons, cold climate
   (c) continental shelf, growth of planktons, good skill of fishing, warm climate
   (d) continental shelf, broken coasts, growth of planktons, warm climate.

(D) Write True or False: **(5)**

(1) Economic Geography is a branch of Human Geography.
(2) Migration is not a component of population change.

Q.6. (A) Read the following passage and answer the questions given below: (4) [8]

More than 3,500 years back, the city of Knossos on the island of Crete was the main centre town of the Minoan civilization. By 500 BC, Greece had become one of the most highly urbanized areas on the Earth. The Greeks established over 500 cities and small towns on the main lands as well as on the islands. Athens and Sparta were the leading cities of Greece.

Athens may have been the largest city in the world at the time, with an estimated 2,50,000 inhabitants. The Greek cities were the centres of religion and power but also served as economic nodes. Cities were the main market places and bases from which wealthy

merchants, and and livestock owners and traders operated. As social and cultural centres the cities of cities included teachers and philosophers. They also had handicrafts industries that attracted the best crafts people and investors. In all of these roles, ancient cities were the anchors of cultural society; the focal points of power, authority and change.

Questions:

(1) Which was the largest city in the world during Greek period?
(2) State the role of Greek cities.
(3) What was the estimated population of Athens city?
(4) Which amenities and services were available in ancient Greek cities?
